

EZONE Ai™ The fastest ever swing speed for a YONEX racquet

VCORE™ Devastating level of power and spin

YONEX boasts a number of the world's top players as their product ambassadors, their constant collaboration enables YONEX to develop racquet design and technology that pushes the limit of what is possible on a tennis court.
For 2014 our ambassadors will choose EZONE Ai or VCORE to enhance their style of play.

Australian Open Boys' Singles Winner **Nick Kyrgios**
 Roland Garros Girls' Singles Winner **Belinda Bencic**
 Wimbledon Girls' Singles Winner **Belinda Bencic**
 US Open Boys' Singles Winner **Borna Coric**

In 2013 our junior ambassadors won all the Junior Grand Slam tournaments using EZONE or VCORE YONEX racquets, Nick Kyrgios, Belinda Bencic and Borna Coric dominated the 2013 junior circuit. Make sure you keep a look out for these stars of the future.

ISOMETRIC™ 7% LARGER SWEET SPOT

All YONEX racquets are ISOMETRIC™, it is our signature racquet technology that we developed over 30 years ago and has helped some of the world's greatest players achieve global success.

YONEX ISOMETRIC™ has been designed to increase the number of main and cross strings that intersect, increasing the sweet spot by 7%.*

A compact, ISOMETRIC™ racquet head [100sq inch] can generate a sweet spot equal to a larger, round-headed racquet [107sq inch]. This delivers greater control without loss of power.

* Tested by YONEX.
ISOMETRIC™ is a trademark of YONEX Co. Ltd.
